

## User Flow Overview: Marco (Firm: AuditPro Systems)

This flow represents a typical journey for **Marco**, a user affiliated with **AuditPro Systems**.

Marco logs in, selects his firm (AuditPro Systems), and explores available listings in the marketplace. His tasks include:

- Installing a **public listing** (e.g. Audit Finalisation Procedure)
- Requesting access to a **restricted listing** (e.g. BAS Lodgement Readiness Checklist)
- Reviewing saved and installed listings

This flow demonstrates how users interact with marketplace content based on visibility

## User Flow Overview: Marco (Firm: Cimplico) – Vendor View

This flow captures the journey of **Marco**, who logs into the platform, selects **Cimplico** as his firm (which is also a **vendor**), and navigates to the **Vendor View** of the marketplace.

In this view, Marco is acting on behalf of the vendor to **manage listings** and **handle incoming requests** from other firms who wish to access Cimplico's content. This flow represents a vendor-side management experience.
